Mob. No. 9675801743, 9412341876 GSTIN: 09ABFFA2905G1ZP

The Company was started with a small Partnership Firm, with small capital which has now crossed a Group of Rs.5.00 Crores and expecting a turnover over Fifteen Crores in next 2 years which simply shows the achievement and desire to work capability of **APC Electricals LLP**.

The marketing of the products manufactured by our company {**APC Electricals LLP**} is done through various modes. The prospective customers are approached through various marketing channels for the sale of the products manufactured by us. Prospective Customers are approached through Company website, advertisement in the print media, personal contact with the customer by the marketing team operating throughout the length and breadth of the country.

We also have a team of marketing experts which help taking care of the business in their respective area by maintaining one to one relationship with the potential customer and also maintaining good relation with the existing customers by taking on side feedback from actual user regarding the performance of the equipment.

By taking feedback from the customers at regular intervals helps the team in maintaining a good report with the customers which help in further generation/procurement of the business at a very low cost which in turn improves the profitability of the organization.

The marketing and sales department as very well co-ordinate with the production department so as to ensure the product delivery as per I:S standard and as per customer order.

The Company's objective has been to give the customer the value for money for the product and lifetime service because of strong in-house R&D capabilities and vast experience of the promoters in the industry, strong outside market and integration of product chain, would help in increasing cost, will definitely makes us more efficient and aggressive towards our work.
